The screenshot shows the Alibaba Cloud Data Management Service (DMS) console. The interface is in English. The top navigation bar includes 'Product', 'Instance', 'Table', 'View', 'History', 'Bookmarks', 'Tab', 'Window', and 'Help'. The main content area displays the 'SQLConsole' for a specific instance. The left sidebar shows a tree view of the database structure, including 'departments' and 'employees' tables. The central pane shows the SQL execution results for a query that created two tables, 'departments' and 'employees', and inserted data into them. The execution was successful, and the results are displayed in a table format. The bottom status bar shows '100' and 'Total Items: 2'.

Alibaba Cloud DMS console interface showing SQL execution results. The console displays the execution of SQL statements to create tables and insert data. The execution was successful, and the results are shown in a table format.

Execution History:

SQL Statements	Time Consuming	Affected Rows
INSERT INTO Employees (Employee_name, Employee_Salary, Department_id) VALUES ('Naif', 10000, 1), ('Khaled', 'Noura Rasheed', 8500, 2), ('Saleh', 8500, 3), ('Deen', 11000, 3), ('Sarah', 8000, 4)	2 (ms)	4
